Decision Tree

A. On my programs page, I will help users find the best fitness program package that they want based on their goals, experience level, and budget.
   a. Decision Node 1: fitness goal
      i. What is your primary fitness goal
         1. Build strength - go to decision node 2
         2. Gain muscle- go to decision node 2
         3. Lose weight- go to decision node 2
         4. Improve endurance- go to decision node 2
   b. Decision Node 2: Experience level
      i. What is your current fitness level
         1. Beginner- decision node 3
         2. Intermediate- decision node 3
         3. Advanced- decision node 3
   c. Decision Node 3: Monthly budget
      i. What is your max monthly budget
         1. Under 100/month
         2. 100-150/month
         3. 150+/month
B. Flowchart
